Java | Spring boot | Selenium Web Driver | Collections Framework | TestNG | Cucumber | Oracle SQL Developer | Maven | POM | Bit Bucket | Agile Development | Rest API | Gradle | JIRA | JAXB |

PROFESSIONAL SUMMARY

Having overall 2.5 Years of experience in QA agile testing with extensive knowledge of Agile and Waterfall methodologies. Seeking a responsible position as an automation tester in a renowned and fast paced working environment.

- Wide level of work experience in creating test scripts using selenium web driver.
- Proficient in **Core Java** and **Collection framework** and basic knowledge on Python.
- Good work experience in **Maven** build tool and **Page Object Model** (POM) design pattern with Hybrid Framework.
- Expert in finding x-path expression for **Dynamic Web elements.**
- Very good knowledge on **Desired Capabilities** of **Chrome**, **IE** and **Firefox** browsers.
- Extensive work knowledge on Data Driven, Keyword driven, Hybrid frameworks.
- Good knowledge on **Apache POI** Library and **Auto IT**.
- Expertise knowledge on Behavioral Driven Development (BDD) framework using cucumber.
- Good work experience in **TestNG** tool and performing **Batch** execution , **Parallel** execution, **Grouping** execution with testng.xml file.
- Firm knowledge of Software Testing Life Cycle(STLC) and Software Developing Life Cycle (SDLC) including **Agile** Development.
- Good work experience on Testing and Development tools like **HP ALM, JIRA, Eclipse,** and **Bit bucket, Jira, Bamboo, JAXB.**
- Good experience in modifying existing scripts and executes automated tests script.
- Efficient in providing quality product with **zero** defect leakage.
- Having experience in working across multiple domains likes **Banking & Financial services.** Worked with major client like **ANZ Bank.** Ability to learn New Technologies and Tools quickly and capable of providing quicker solutions to technical /logical issues.

EDUCATION

Bachelor of Engineering (2012 - 2016)
- Completed Computer science and Engineering with **72.30%** aggregate from N.C.E.T Bangalore affiliated under VTU Belgaum in 2016.

+2(2010 - 2012)
- Completed PCMC with 69.00% aggregate from PUC at SAMBHRAM PRE-UNIVERSITY COLLEGE, Bangalore in 2012.

SSLC (2009 - 2010)
- Completed SSLC with 71.90 % aggregate from T.G.H.School, Bangalore.

CERTIFICATIONS

ISTQB foundation level Certification (2017).
- Certification body: Seed InfoTech limited

JAVA certification
- ABC FOR JAVA AND TESTING.

EXPERIENCE

Senior Software Engineer(**Dec 2016- Present)**

Capgemini(**www.capgmini.co.in-** – India, Bangalore)

Role : Senior Software Engineer

SKILLS

Programming Languages.	**Java 1.8, spring, JAXB.**
IDE.	**Eclipse, IntelliJ, Oracle SQL Developer.**
Database.	**Oracle SQL Developer.**
Web Services	**Rest API.**
Working Platform.	**Windows.**
Testing Supporters.	**Selenium web Driver, Cucumber, TestNG.**
Tracking tool	**JIRA, HP ALM.**
Repository	**Bit Bucket.**
Integration tool	**Bamboo.**
Building tools	**Maven, GRADLE.**
Working Methodology	**Agile development.**
Supporting tools/ technologies	**AutoIt, Free marker, Lombok.**

PROJECTS

Project1: **ANZ Bank–Payment Applications Consolidation**– Dec -2016 – till date

Consolidated PAC Web Application is payment ANZ application. OPEE is the application developed for the bank user to handle and perform bank operations on bulk payments received from clients And Python application for the clients or customers for the payment operations / transactions.
Initiative Details: An initiative of Web Automation Testing from scratch.
Technologies: Java, Oracle SQL developer, Bit-Bucket, JIRA, Spring framework, Selenium web driver, Collection framework, Auto IT, TestNG, Cucumber, RestAPI, Bamboo and Maven.
Responsibilities Held: Agile Automation Engineer.

- Understanding the Manual Test cases and segregate to Automation Test Scripts.
- Once Application functionality worked as expected, initiated Automation scripting and automated Application in less amount of time with 2 resources.
- Before developing scripts, get the latest code from the **Bit bucket (R**epository**)** on daily basis. And coordinated with developers and business Analysts prepared acceptance specifications for each application and tests.
- Developed automated tests and ensured its accordance with business specifications.
- Assisted clients and developers and ensured that test case prepared was comprehensive in nature.
- Involved in Functional, Integration, System, Smoke, Sanity and Regression Testing.
- Performed regular **Regression** test on new and existing features of applications.
- Responsible for the Testing deliverables, Defect Tracking, Daily/ Weekly Status Reports and Product Test result document to stakeholders. Involved in Functional Test Analysis, Planning and Execution. And Analyzing business Requirements and Managed Test Activities - Work Allocation and Collative Progress of Team.
- Involved in preparing Test Plan, Test Cases, Executing Tests Cases, and Defect Management and Took over full ownership of the application Modules.
- Involved in Integration Testing, Regression testing, Smoke Testing.
- Responsible for the Testing deliverables, Daily Status Reports, Weekly Status Reports, Bug Tracker. And delegating and monitoring work till completion.

PERSONAL PROFILE

Name	:	Manohar D.
Nationality	:	Indian.
Date of Barth	:	May 31st, 1994.
Gender	:	Male.
